Mrs. McCumber Avoided a Serious Operation by Taking Lydia E. Pinkham's Vegetable Compound

Georgetown, Ill.—"After my first baby was born I suffered so with my left side that I could not walk unless I was all humped over, holding to my side. I doctored with several doctors but found no relief and they said I would have to have an operation. My mother insisted on my taking Lydia E. Pinkham's Vegetable Compound and I soon found relief. Now I can do all my own work and it is the Vegetable Compound that has saved me from an operation. I cannot praise your medicine too highly and I tell all of my friends and neighbors what the Compound did for me."—Mrs. MARGARET MCCUMBER, 27 S. Frazier St., Georgetown, Illinois.

Mrs. McCumber is one of the unnumbered thousands of housewives who struggle to keep about their daily tasks, while suffering from ailments peculiar to women with backache, sideaches, headaches, bearing-down pains and nervousness,—and every such woman should profit by her experience and give Lydia E. Pinkham's Vegetable Compound a trial.

U. S. GUNBOAT AT TAMPICO

Government of Mexico Has Thus Far Failed to Make Protest

NO DEMONSTRATION BY U. S. WARSHIPS

According to the Reports Which Come From Mexico City

Mexico City, July 7.—The United States gunboat Sacramento, sent to Mexican waters as a result of reports reaching Washington, arrived at Tampico yesterday, and is anchored in the harbor there, it was said in a dispatch received last night from that city.

In view of the regulations of international law, which provide that foreign warships can enter the port of any friendly nation and remain for 24 hours, the Mexican foreign office refused last night to comment upon the arrival of the Sacramento at Tampico.

"The Mexican government," said Elias P. Calles, secretary of the interior, and chief of the cabinet, last night, "does not see in the dispatch of vessels to Tampico a show of naval strength on the part of the United States, inasmuch as there is no conflict at present which might cause the hostile presence of these ships."

The secretary added he anticipated no naval demonstration by the United States at any Mexican port.

President Obregon refused to comment on the situation in the absence of official communication from Washington regarding the sending of war vessels into Mexican waters.

The president declared the government did not intend to rescind the recent decree increasing the taxes on oil exported from the country, saying that every barrel of oil taken out of Mexico represented an exhaustion of the natural resources which could not be replaced. He asserted later conditions in the Tampico district were not as bad as reported, asserting that at present not more than five thousand men were out of employment. He said the government was aiding them in every way possible.

NEWBURY

The Fourth was ushered in with the firing of cannon and clanging of the village bells the noise of which was deeply appreciated by those of a nervous disposition who had forgotten that they were once boys. Young America was out in full force and in their patriotic zeal were carried a trifle beyond the realms of patriotism.

In the good old times, say when we were boys, gates were often misplaced, porch chairs were found on other piazzas and there was a general mix-up all around but the only thing we noticed out of place on the morning of the day we celebrated was a one horse dump cart on the roof of Hale's store. How the world it got there is a mystery. Some think it was dropped by aeroplanes which pass over our town like ships in the night. Yet there is another version. Keep it mum; there were three suspicious characters seen in town Sunday. One a prominent lawyer of Boston, a noted dentist of the same city and a skilled mechanic from Barre, Vt. Knowing these parties from their youth, feel justified in making the statement that they didn't do it although it looks mighty suspicious, as the doctor had wheel grease on his pants Monday morning which resembled the wheel grease on the axle of the dump cart and the skilled mechanic dug out for Barre as soon as suspected, while the lawyer did not show up Monday. The dump cart is still on the roof, and the suspects are at large at this writing.

Several of our townspeople took in the sights at St. Johnsbury and Barton on the Fourth. The stay-at-home visitors Hall's pond, and the picnic at West Newbury where they had, as they always do, a good time.

George Fabry was home over the Fourth.

Mr. and Mrs. Edwin Bayley of Lexington, Mass., Doctor Irving John and Mrs. Johnson of Boston, Freeman Gilley and wife of Barre, Vt., and F. L. Cobb of Boston were week-end visitors, as well as Fourth of July guests.

It must have been inspiring to the Nellie Gill players last Friday night as they looked down upon the sea of upturned and expectant faces of their turned and expectant faces of their very best. Mr. Cogswell in the role of "Lightning" captivated his audience, an audience which has begun to love this quiet and gentlemanly man and held its undivided attention from the start until the finish. He brought to the mind of many, Joseph Jefferson in his wonderful character sketch of Rip Van Winkle while Nellie Gill in an entirely new role brought down the house with her good eye for the judge whom she lassoed and finally led round (as she always does) with a string. At the close of the entertainment words were heard from all quarters expressing satisfaction, and there seemed to be a feeling of thankfulness that the

Do you find it hard to keep going—impossible to be happy or enjoy your work? It's time, then, you looked to your kidneys! The kidneys are the blood-filters.
